

ACCUTORQ SOCKETS

The only lug nut torquing sockets tested and **approved by GM, FORD, CHRYSLER, MAZDA, VOLVO, SAAB FIRESTONE, GOODYEAR and MIDAS.** ACCUTORQ sockets have been used in Europe for years and have a proven record for accuracy and reliability. ACCUTORQ sockets are one piece design wheel tightening/torquing sockets made in Sweden of the finest spring steel in an exclusive process. Enjoy all the benefits of proper wheel torque with the speed and convenience on your standard impact gun.

- allows your customers to easily remove wheels in emergency situations
- eliminates broken or damaged studs
- eliminates warped or distorted rotors, wheels and brake parts
- prevents damage to alloy wheels
